What is the difference between Swissint Refill and the complete windscreen-wiper?

SWISSINT Refills

In comparison with complete windscreen-wiper

1. **Only 3 Refill formats necessary to cover all makes and models of vehicles**
Minimal storage facilities required

Effortful cost-intensive storekeeping

2. **Significant time saving**
No need to cross-check the correct wiper model Number

Looks for the right windscreen-wiper model, costs money and time

3. **Quality SWISSINT: Wiping and live performance equal to high quality OE Wiper**

Cheap windscreen-wiper have a shorter life time than originals or Swissint Refills

4. **More Value for your Money** or repair shops, auto part stores and the end consumer, Swissint Refill have more value than conventional windshield wipers. Swissint Refill *recommended*
Selling price:

Original manufacturer windshield wipers are more expensive to purchase

5. **The original manufacturer's wiper housing remains on the vehicle and Swissint Refill leaves aerodynamics unchanged.**
We change only the rubber; the original windshield-wiper frame remains unchanged

Every model of vehicle is tested in a wind tunnel and needs the original windshield-wiper frame to maintain aerodynamics

6. **Environmentally friendly, less waste**
With our system only the rubber is replaced

Whole windshield-wipers
Replacing the entire windshield wiper is expensive and creates un-necessary waste

7. **The temperature and acid resistance of Swissint Refills are long-lasting and the best on the market!**
-65 C bis +123 C

Temperature resistance of original manufacturers such as: originals Windscreen Wiperblades
-65C bis + 65C

8. **For newly released cars it takes approx. two to three years until aftermarket blades become available. Swissint REFILLS cover them immediately.**

Original windshield-wipers are very expensive

9. **Perfect add-on**
Swissint Wiperblade-Refill are the perfect supplementary to every Wiper Blade assortment

In every workshop our products have absolutely your right, them are even one must and be used urgently!
